

With your help we can provide **safe, secure, and affordable housing for women, children & Seniors**

FUNDRAISING FOR THE VICTORY T&C MOTOR HOTEL CONVERSION PROJECT IS UNDERWAY

NOW THAT WE HAVE PURCHASED THE HOTEL we are entering phase 2 of our fundraising efforts. This stage is focused on the conversion of floors 2,3, and 4 into residential suites and will cost approximately \$4 million.

Our organization has always taken a community approach to ending homelessness by operating in low income neighborhoods where the working poor live, and the homeless often look for accommodation. This approach is how we have achieved success in the blue collar community of Ogden where we successfully converted a historic hotel that now provides safe, secure and truly affordable housing for 59 men. And now, after twelve years of serving the marginalized in Forest Lawn, we have an opportunity to reproduce this model. With our community houses in Forest Lawn at full capacity, the Victory T&C project will provide an additional 48 safe, secure, and truly affordable units for women, children and seniors.

Currently we have safe, secure and truly affordable housing for **74** men, women and women with **children**

The Town and Country Motor Hotel will provide 48 ADDITIONAL housing units for women, women with children and Seniors.
